

ANNE SEMONIN PARIS

BENEFIT FROM 'MADE-TO-MEASURE' APPROACH TO BEAUTY AND SKINCARE

Jumeirah Messilah Beach Hotel and Spa, Kuwait's idyllic resort, welcomed a new exclusive brand, Anne Semonin, to its award-winning Talise Spa. The advanced skincare brand from Paris is designed to offer premium, effective and blissful treatment experiences for anti-aging and nourishing results.

With a focus on made-to-measure products, Anne Semonin, a beautician to iconic stars such as Princess Grace Kelly and Catherine Deneuve, personalizes treatments to suit all guests' needs and lifestyles. Because each skin is unique, the highly-qualified therapists at Talise Spa have been trained to offer guests a customized skin regime using Anne Semonin's premium ingredients consisting of seaweed, marine and plant extracts.

Talise Spa's menu now features a selection of Anne Semonin's facials, massage, and body detox rituals. Highlights include the 60-minute Marine Mineral Purifier Facial, which combines the power of marine elements resulting in a deeply purifying treatment for silky smooth skin.

The Cyro-time freeze facial uses the age-defying effects of cooling the skin to reinforce its firmness. The dry, sunny weather of this region might leave one feeling like their skin is ageing more quickly, but the delicate touch of Wild Indigo stimulates the skin leaving it radiant, toned, and brightened.

Men can also make the most of Anne Semonin's offering with a dedicated men's menu. They can also recharge their muscles after a rough workout and relieve tension using a blend of enriching oils alleviating aches and releasing tightness. Anne Semonin will complement the current luxurious skincare brands at Talise Spa, such as Aromatherapy Associates, ILA, NEOM Organics from London, and Natura Bisse.
