Join the Dots

STAR TRACK

<p>Aries (March 21-April 19) Have you been thinking about attending a seminar of some kind, Aries, perhaps business related? You and a partner might go together. This is a good time to do this, as your thinking is particularly clear and retentive and you find it easier than usual to concentrate. Discussions with your partner afterward could be the icing on the cake. Tomorrow you will feel like you can take the world by storm.</p>	<p>Cancer (June 21-July 22) A meeting, perhaps related to finances, might take place at your home, Cancer. For the most part, the meeting will go well and you will accomplish what you want. Communication flows freely and agreements are easily reached. Bear in mind that someone has an agenda of their own that might not correspond with the interests of everyone else. Avoid discussing anything that should be kept confidential.</p>	<p>Libra (September 23-October 22) Have you wanted to catch up on your reading, Libra? If so, this is definitely a good time to stay home, make yourself some tea, and curl up with a good book. If it's a novel, you will enjoy it thoroughly. If it's nonfiction, you will absorb the information quickly and retain more. If you're into writing, you might want to apply what you learn today to your own project.</p>	<p>Capricorn (December 22-January 19) In case you're surrounded by a lot of people today, you can look forward to a very harmonious day, Capricorn. Your sensitivity is higher than usual, so you will be better able to understand others and be understood as well. As a result, you add another bond to your relationships, which will create happiness and joy in your heart.</p>
<p>Taurus (April 20-May 20) Have you been working hard to attain optimal health, Taurus? If so, you may suddenly notice that your efforts are finally bearing fruit. You should feel especially fit and strong, though maybe a little lightheaded. You will want to increase your exercise, and you have the discipline to do so. Make the most of this drive while you can. Push yourself as hard as you can without stressing out.</p>	<p>Leo (July 23-August 22) If you're into writing, Leo, this is the perfect day to sit down and churn out the words, even if it's only a letter to a friend. Your imagination is especially vivid, your expression clear and understandable, and your vocabulary skills especially acute. If this is a thesis or article, you may spend hours on it. Don't worry. It will be that much better for it.</p>	<p>Scorpio (October 23-November 21) Intuition and imagination combine with good common sense to enable you to accomplish just about anything today, Scorpio. If you're into the arts, ideas could come to you in profusion. It will be easy to bring them into reality with a stroke of the pen or brush. The only problem might be deciding among them. It might be a good idea to sequester yourself and concentrate on your work.</p>	<p>Aquarius (January 20- February 18) Learning comes easily to you, Aquarius, as your mind is especially sharp and retentive. Your intuition is usually high, but today it's especially acute, as is your concentration. Therefore, this is a great day to read or work on an art project. Set aside some time alone to contemplate. It may help you on a very deep level.</p>
<p>Gemini (May 21-June 20) A long-term love relationship may finally reach the point of total commitment, Gemini. Intense feelings and words of love could suddenly come from your partner, which could take you by surprise but are no less welcome for that. Talk of a future together may result, but no concrete decisions will be made. Nor should they be. Don't push it. Bask in the glow of the promise of lasting love.</p>	<p>Virgo (August 23-September 22) Do you have some paperwork regarding money that you've been putting off, Virgo? If so, this is a good day to get it out of the way once and for all. Your mind is especially sharp and your concentration strong, so you're less likely to be distracted or make mistakes. Take care of it first thing in the morning and then you can forget about it.</p>	<p>Sagittarius (November 22-December 21) Conversations with friends take on a more serious note, Sagittarius. Spiritual matters and beliefs could come up, as could the more pressing mundane details of life. Whatever is discussed today could bring to the surface new ideas for making whatever you're working on move smoothly and quickly to success. Metaphysical ideas seem clearer and more down to Earth. Treat your friends to a nice meal.</p>	<p>Pisces (February 19-March 20) It should be easier than usual to concentrate on the practical aspects of finances, Pisces. A keener mind combines with enhanced intuition to give you a special edge when it comes to making decisions on everything that concern money, so make the most of it while you can. Connect with the people you love tonight.</p>
