SANDSLASH

Did you know?

- We use time to order events in the past, present and future. We also use it to make comparisons and measure the speed at which things move.
- If you wanted to measure time you could use a watch, clock, hourglass or even a sundial.
- A sundial is a tool that uses the position of the Sun to measure time, typically involving a shadow cast across a marked surface.
- The use of pendulums to accurately measure time was discovered by Galileo Galilee around 400 years ago. A pendulum is a free swinging weight hanging from a pivot.
- There are 60 seconds in a minute, 60 minutes in an hour and 24 hours in a day.
- Normal years have 365 days but a Leap year has 366. The Earth takes a little longer than 365 days to go around the Sun so we add an extra day in February every four years (with a few exceptions) to keep calendars and seasons aligned.
- 10 years is known as a decade, 100 years is known as a century and 1000 years is known as a millennium.
- Milliseconds, microseconds and nanoseconds are examples of very small units of time.
- Planck time is the name given to the smallest known unit of time. It's a little confusing but it measures the amount of time it takes light to travel 1 Planck length (a distance so small that it can't even be measured!).
- Scientists believe the moon was used as a form of calendar as far back as 6000 years ago. Calendars have been changing ever since and are very accurate in modern times.
- Accurate clocks that measure hours, minutes and seconds have improved with the invention of sundials, water clocks, mechanical clocks, pendulums and hourglasses through to the digital displays and atomic clocks of today.
- Many places use daylight saving time (typically by putting clocks forward an hour) for longer daylight in the evenings.
- Different parts of the world are located in different time zones. This means that while you are having breakfast in the morning, someone in another part of the world is having dinner.
- Theories related to time have been put forward by famous scientists such as Isaac Newton and Albert Einstein. You may have even heard of the term 'space-time', a model in physics that joins space and time together.

ACTIVITY

Hand and foot butterfly artwork

What you need:

- Large construction paper
- Double sided colored paper
- Colored pencils or markers
- Glue stick
- Scissors

Activity:

- Gather your supplies.
- On your colored paper, trace around your hand four times and your foot once. You can just do one hand and flip the paper over when pasting.
- Cut out all of your traced prints.
- Paste your footprint in the middle of your construction paper and add your handprints as wings at the side of your footprint.
- Draw on some colorful antennae, a face and decorate the wings.

Q: Where was the Declaration of Independence signed?
A: At the bottom!

Q: What do Alexander the Great and Kermit the Frog have in common?
A: The same middle name!

Q: What is the fruitiest subject at school?
A: History, because it's full of dates!

Q: Why did the pioneers cross the country in covered wagons?
A: Because they didn't want to wait 40 years for a train!

Q: When a knight was killed in battle, what sign did they put on his grave?
A: Rust in peace!

Q: How was the Roman Empire cut in half?
A: With a pair of Caesars!

JOKES

RECIPES FOR KIDS

Cream Cheese Penguins

Ingredients:

- 1 package frozen chopped spinach, thawed and drained
- 2 cups finely crushed herb-seasoned dry bread stuffing mix
- 1/2 cup grated Parmesan cheese
- 2 teaspoons garlic powder
- 1 teaspoon Italian seasoning
- 1/2 teaspoon ground black pepper
- 1/2 cup melted butter
- 3 eggs, beaten

Method:

- Preheat oven to 350 degrees F.
- In a large bowl combine spinach, stuffing mix, Parmesan cheese, garlic powder, black pepper, Italian seasoning, melted butter and eggs. Shape into walnut-sized balls and place on a baking sheet.
- Bake in preheated oven for 20 minutes, or until heated through and browned.

DISNEY

THE QUIZ

- In which short Disney film do we see Mickey Mouse lose control of Mops and Buckets?
- In which Disney film do you find a group of vegetarian sharks?
- In Sleeping Beauty and Snow White the main characters are awoken by the same act - what is it?
- Name the sidekick of Disney character, Thumper?
- Whose classic novel is The Jungle Book based on?
- Which Disney character sings the song 'Poor Unfortunate Souls'?
- What Disney film has an Elasticgirl and an Ice man?
- 'Can You Feel The Love Tonight' is a song from which Disney film?
- In which 1992 Disney rendition film will you find the villain, Jafar?
- In the 1985 film Alice in Wonderland, what does the bottle with 'drink me' do to Alice?

ANSWERS

- The Sorcerer's Apprentice
- Finding Nemo
- A Prince's Kiss
- Bambi
- Rudyard Kipling's
- Ursula, The Little Mermaid
- The Incredibles
- Lion King
- Aladdin
- It shrinks her
