STAR TRACK

Aries (March 21-April 19)

You are interested in helping others today. Teaching or helping others to be more original when it comes to the words or thoughts is a good thing. Your eye-hand coordination is excellent and your laser-like mind makes conversations fast-paced and illuminating. You can be very funny in your conversations today. There are many practical ideas available to you, especially related to your job or skills. You are always coming up with new ideas to manage things better and make things work. You have a strong concern for life, equality, gentleness and acceptance. You love community projects and group work of any kind and may find yourself in meetings this evening with discussions that concern the beautification of your neighborhood. Aim high!

Taurus (April 20-May 20)

You could be most persuasive with others and eloquent in speech and communication. The initiative is yours and you will find positive results will develop from your actions. This is a day to take risks and dare to be a little unconventional. There are new insights, inventions and an independent point of view. Your career could open up by taking the road less traveled, or by daring to be the oddball. Growth and success could be tied to your possessions or to the way you respond to the various ideas and impulses operating in your life now. This may mean the connection you have with your teachers, partners, hobbies or the competitions that you enter. Your day ends with the most positive of attitudes.

Gemini (May 21-June 20)

You may find yourself having a difference of opinion with others this day. You could be going against tradition if you become too independent for group approval. This could actually slow your progress. You could have difficulty getting your ideas across to others, sometimes feeling inadequate in matters that require logic or the use of your mental powers. You may have doubts about those who talk too much and seems long on ideas. You may lack flexibility, managing a foot-in-the-mouth when you least need it. Give your ideas time to set in so that others will see the best ways in which to carry on a project. Take the observer point of view and watch things develop for the rest of this day. You may find you made a positive difference.

Cancer (June 21-July 22)

If you have the opportunity to work in groups today, you will do well. Cooperation, communication and coordination are all working together to win for the team or to succeed in the project. Clear decisions and original insight are working for you. You are most innovative when concentrating on areas of home and family. You are a private person and find all the pomp and circumstance of public life repulsive and boring. You are interested in esoteric religion, everything mystical or occult, etc. Sexuality and physical desires are encouraged and seen as spiritual. Money, power and things of this world are okay too. The physical is ideal. Perhaps some fun drama is part of this evening; hopefully you have a camera.

Leo (July 23-August 22)

This is a very lucky day for making plans or decisions and finding your way through just about any problem you may discover. You will be feeling successful and able to cope with whatever comes across your path today. Good advice from a guide or older person may be forthcoming. You are very fortunate in being able to grow and progress throughout your life without major difficulties. You can always find the resources you require plus the necessary instruction on how to use the resources. Your love of job and practical skills makes you a fine manager and business person. You bring a great deal of love to your work. Your mind is full of practical ideas, especially related to your job or skills. Tonight you have new ideas of how to manage your time.

Virgo (August 23-September 22)

You are at your most practical when it comes to dealing and working with others. You know just what to do and can act without haste and emotion. You are called on to make use of your natural abilities and common sense. There is a need to be respected, which is an emotionally charged issue in your life at this time, and you may find yourself wanting to say things you might regret-bite your lip. You will want to set your work aside later today in order to help teach a new employee the details about some new project. An influential person may take notice of your special talents. You are feeling unusually good and could write about the things you see around you today. This evening you will find that romance is possible.

Libra (September 23-October 22)

You may find yourself having emotional differences with someone at work. A report with facts may help you to prove your point without having to spend time in argument. Having these facts to back up your ideas will gain you much. You are at your most practical when it comes to dealing and working with others and you enjoy having problems to solve. You know just what to do and you can act without haste and emotion. You also enjoy a good break time, especially at the noon hour when you can get outside to walk and think about things outside of work. You are one to enjoy life and embrace all the differences that life has to offer. If you are shopping tonight, make out a list before you go into the stores-it will help you save.

Scorpio (October 23-November 21)

A rebellious streak could affect your career now-careful. Your sense of independence may tend to kick over the applecart and upset everything. Your progress and success may be at the expense of your more unconventional tendencies. This may become a source of struggle. You prefer a career that accents your own devotion to the dreams and ideals you stand for these days. Working with groups in a spirit of cooperation and communion is a natural. You come up with new solutions or inventions today and others will follow your lead. A closed mind believes the future and the present will be the same. There is a chance to understand those around you and to have a special time with someone you love. This is a happy time.

Sagittarius (November 22-December 21)

There is an emphasis on communication, expression of ideas and the connections that unite. Something new has your attention today and this could mean a new boss as much as it could mean a new piece of equipment or even a new job. A new system of working may put you in the leadership role and you know people are watching. You will succeed at whatever you take on so relax... Don't be so hard on yourself; move forward one step at a time. You will perform correctly and others will understand exactly what you are communicating. Later today, you could find yourself at a basketball, baseball or hockey game... Yelling your lungs out! Here you will likely find a special friend with whom you have a lot in common.

Capricorn (December 22-January 19)

You or someone close to you finds mistakes today. Some people say that people are not really trying unless they discover mistakes from time to time. Besides, if we were not meant to start over, we would not continue to have this mornings. You have an innate love of the law and working through things. You are not discouraged by problems and obstacles-you may look forward to solving them. You have the ability to work with others, particularly regarding vocation or career guidance. You can advise and guide others in matters that are work-related decisions and may find yourself doing so today. This could be a particularly lucky day. Look into ways that you could put aside some income for future investment purposes.

Aquarius (January 20- February 18)

You are a terrific businessperson and you exhibit your ability to get past the surface of things and separate the things that have real worth. Ideas are in the air. Tap into that universal mind through some quiet meditation during a break time. Your presence in a group situation today has a very decided effect. Others may feel that nothing is a secret from you. Family, home and security seems just about ideal. Your family life has gone through some big improvements lately and may continue to improve. You are creative when it comes to partnerships or lovers; you seem to establish unusual and different relationships. You reflect and celebrate the positive things in your life and in the family. You may find a love relationship deepens now.

Pisces (February 19-March 20)

This is a time of good fortune. Good surprises are plentiful. Situations are almost perfect and it is easy to see which path is the one to take. The challenge comes when you work to keep your concentration strong. Continual discovery, persistent search and persistent change and transformation keep you on the move and growing. You are able to penetrate and get to the very heart of things. Research into when, what and where you really want to make your changes may be beneficial. A break from work, perhaps out-of-doors, may be worth telling about later today. A one-on-one with a bird or some other animal makes life more appealing. You may enjoy a good movie or book or feel like escaping from day-to-day realities for a while.
