- An enclosure made of wire or metal bars in which birds or animals are kept.
- The month following March and preceding May.
- Extinct flightless bird of New Zealand.
- The fifth day of the week.

Yesterday's Solution

STAR TRACK

Aries (March 21-April 19)

Work seems intense today but you possess a powerful, persistent drive and are a hard, steady worker. Some people find you deep, with a sense of mystery. You are willing to do work today that others would not go near, quietly putting an end to some difficult problems. Later today you might be helping others to learn technical techniques so that you will eventually not be so overburdened. You are able to direct others in your business and this may lead to a leadership position. You busy yourself this afternoon in some project that you had been putting off for some time. You will be creating a new form or format for presentation to some very important people. Some people may wonder how the business could ever get along without you.

Taurus (April 20-May 20)

You are friendly and encouraging today. You somehow manage to find a creative environment or the creative in any environment, so as to provide the most beneficial area in which to work or play. Others want to join you in this project. You have a built-in sense of what the public wants and can always come up with just the right image. You find it easy to work with the emotions and feelings of others and with great imagination. You are great with kids and big on animals, sports and the outdoors. You are an instant umbrella of warmth, friendship and self-expression. Clear decisions affecting others could be made easily at this time. These are the attitudes and circumstances in which you find yourself teaching others.

Gemini (May 21-June 20)

There are lots of energy and action this day. Your dreams and imaginings keep bumping into the real and the actual. You quickly pick up on what is expected of you, and you are accountable. You are learning to plan ahead as you see your goals begin to develop. You do the best you can in every situation that you experience. It takes judgment to make the choices that best benefit a situation. Consider this: your powers of perception are particularly sharp at this time, and you would do well now to work out the details of any plans that you have previously made. This evening, you may feel focused and even a bit radiant. You are either entertaining company or being entertained yourself tonight. The snacks are low calorie and nutritional-good for you!

Cancer (June 21-July 22)

You may realize that you may have been stagnating lately. There are opportunities today to rise above the mundane. Saying or writing with style comes naturally as you seek to write a program or progress report. It may seem that you are always writing technical material, and just now there is a desire for variety with some of your work. You may find yourself at a used book store reading all types of subjects. You may even find yourself involved with two books at once. Increasing your vocabulary expertise can be a fun ongoing activity, and you could find a friend to join you. Your ability to discriminate real breakthroughs and to spot new trends makes you able to work in areas at the very fringe of technology these days-more technology to write.

Leo (July 23-August 22)

Before work begins this morning, conversations with co-workers could be in the religious realm or at least, spiritual. You have little interest in spirituality that is rampant these days. You could probably bring imagination and religious understanding to physical and scientific studies. Opportunity for further thought regarding the spirit trends to crop up during the day-you are open to new ways of thinking. Continued success on the career level may point to your abandoning some of your dreams. This afternoon, family matters tend to take precedence and you may have to help a young person to understand the word-concentration. You may even think of some fun exercise or game to play with the kids that will help with concentration.

Virgo (August 23-September 22)

You enjoy working hard and being organized and you exercise skill and discipline in anything that affects your career and reputation. You have the perfect combination to be in a management position at this time. If you think you are ready, this time may be best for pushing through any changes you may want to make in your career. You have good insight into all social activities that are around you and if you are not careful, you may find yourself involved in many club or social group responsibilities. You like to facilitate, compromise and otherwise show your talents-like a coat of many colors. New and creative projects help you to change that feeling of being in a rut. Chatting with neighbors or siblings this evening will help you to relax.

Libra (September 23-October 22)

An emphasis on discipline with regard to work and health is a keynote of the cycle now dawning in your life. Procedures, scheduling, details: you may become weak in some areas unless you take steps to correct any deficiencies. Deficiencies may only be when you fail to meet a deadline. You can do this... You will be pleased with your progress. Otherwise, you will have to run faster just to avoid falling behind. A desire for variety marks this phase and this especially applies to romantic experience and artistic taste. The latter tend to focus on literature and poetry. Communication with distant family members is possible this afternoon. A sociable, congenial, slightly frivolous orientation sets in this evening. A social involvement can be enjoyable.

Scorpio (October 23-November 21)

This is a good time for promoting yourself and for letting others know what you have to offer. Right now, the key to career moves involves attending to nagging details-whatever you have neglected before. This is a time during which you may be able to move ahead with your ambition and your general life's purpose. You would make an excellent teacher of philosophy or religion-you cannot help but communicate these subjects to others and enchant all who come to know you. Your understanding of the unity behind appearances, along with the ability to put these thoughts into words, is a rare and valuable gift. You would make a good director, photographer, choreographer, etc. You like working with mental images.

Sagittarius (November 22-December 21)

You might like to ignore responsibilities and do some socializing, but realities demand you tend to business and forget your friends for the moment. This is one of the best times to make progress, push forward and rise to prominence. It will be hard for you to do wrong-all the cycles are working in your favor. Your career seems to get the support you need and this is one area of life that runs smoothly. You seem to understand what the public wants and mass marketing could be a natural for you. This is also a time when you may marry or take on a new role in the community or with other people. Your mind is ever on communication, how you present yourself, especially when negotiating. Enjoy cooking a new recipe tonight.

Capricorn (December 22-January 19)

Independence on the part of people or events somehow challenges your authority today. Also, the forces of change assert themselves now and again, managing to overrule and overturn whatever you have managed to secure. Observing others, you will find that some people just naturally deal well with upheavals and adjustments-yet others may find much difficulty. You have great discipline and may find it enjoyable to teach young people how to solve difficulties they may uncover. You can demonstrate a good sensitivity and understanding about the needs of others. You know just the right words that will communicate positive messages. This could involve political issues. If not community politics, possibly club politics.

Aquarius (January 20- February 18)

Opportunities may go against your own sense of responsibility. Career choices may require that you temporarily neglect the home. This is a tough call, and some compromise is perhaps the best way to a workable solution. This is a perfect time to be assertive and to move forward in your career decisions. You are driven when it comes to fulfilling your ambitions and carving out a career. There is no lack of energy or drive here, and nothing can stand in your way. Everything is poured into making the right moves-the correct decisions. You are outgoing, enthusiastic and always diplomatic-everybody's favorite. Politics or some other public career seems inevitable. Some experienced politician may tutor you in this process if that is what you want.

Pisces (February 19-March 20)

You enjoy working with whatever is psychological-the hidden, vulnerable, sensitive areas of the mind and self. You can handle material that is sensitive or taboo without batting an eye. This interest in all that is psychological makes you an excellent teacher. You also have a natural grasp for writing and after you worked with research, reports and projects, you may decide to go in a different direction. The different direction is what today is about. Where could you apply your talents and be the happiest your drive in the area of psychology, meditation, renewals of direction or perhaps, concentration on a focus to improve, may mean an advice column. If you are not with a mate, this may be a time you will meet someone very special.
