**Aries (March 21-April 19)**

Aries, making suggestions or providing input on an assignment seems impossible as you're frequently cut off by a rude coworker; keeping your thoughts to yourself is probably best in this instance. Unhappiness or discontent in your personal life demands your attention; looking for and finding solutions could seem hopeless, but you never know what's just around the corner. Be patient and let things unfold as they will; you could do more harm than good if you push too hard. You pick up on the vibes of those around you. Communicating with others comes easily; use this to get your message across regarding a sensitive situation. Spontaneity can sometimes create problems but today it sets you free. A quiet evening brings this busy day to a nice close, Aries.

**Taurus (April 20-May 20)**

Taurus, making peace with a decision makes your world much better. Finding a safe haven from the world gives you the space to think and plan. New information requires your full attention. You could back away from a certain aspect of your job you have wanted to leave behind for some time. A new discovery of an alternative way to do something catches on and could actually make you a hero or heroine of sorts; if you don't believe this, just watch! Someone who could be disabled asks for your help on a legal matter you have knowledge about. You could be in the market for a new residence that fits your lifestyle. A new friend turns out to be very helpful in finishing a difficult project. Later, you find that you attract positive energy as needed, Taurus.

**Gemini (May 21-June 20)**

You're busy and are able to experience some things you have been curious about for a long time. Now's the time to pursue a new job or to move upward in the one you have now; a new dynamic attitude is noticed by all. You're in a very talkative mood and may have to mind your tongue with a certain troublemaker. The best direction for you to go is clear and obviously positive. You have reached a period of reaching important goals; the work you have done over the years on self-improvement pay off now! A sensual evening with a sweetheart for you, sweet Gemini.

**Cancer (June 21-July 22)**

Being busy and in touch with people of different backgrounds brings satisfaction. Support for your thoughts and actions is high in your environment. Intuitive energy surrounds you when someone tells you something that's simply not true; listen to what you're being told on a spiritual level. Having your finger on the pulse of things feels right as you need to make an important choice. You may find that you're interested in a new person on an intimate level; this could also indicate a deepening of a current relationship, but either way romance is likely. Follow your heart after you're sure you understand what it's saying, Cancer.

**Leo (July 23-August 22)**

Being kept in the loop is important as you want to be in the center of everything; you strive to see the big picture. You enjoy developing a positive habit that replaces a negative one; you seem to actually like change and modifications. Even with the changes going on with you, it's still difficult to control your temper with certain people who know how to push your buttons. You become annoyed when someone challenges your authority. With the end of a project in sight you could decide to celebrate. Remember, you have entered a period of vast emotional change, Leo.

**Virgo (August 23-September 22)**

Virgo, you walk a line between two sides of an argument; diplomacy is good, but it becomes difficult when you see both sides of the coin. You remove yourself from an unpleasant situation. You enjoy being in the middle of something new and innovative; you continue to respect tradition while adding to it. You turn a cold shoulder to someone who criticizes you on a personal level; sometimes the only way to deal with someone like this is to get as far away as you can. You have entered a phase of lucky outcomes and it seems that you attain material and mental abundance almost without effort. Make hay while the sun shines! Someone looks to you for help that only you can give. You love to give, but tonight, dear Virgo, you find yourself on the receiving end, Virgo.

**Libra (September 23-October 22)**

Libra, your mind is open to new paths and thinking that could create positive changes. Take care not to collapse yourself into some new ideas you come across; a slow, steady pace works far, far better. A strong desire to stay in touch with someone could become distracting but something drives you toward this; concentrate and you could discover exactly what's motivating you. Some frustration with a certain project that just won't seem to end could throw you into a bad mood. Your focus is on the outcome when, perhaps, it should be on the journey; the latter is the way you normally view these things. You may find that you're experiencing a recurring dream that could puzzle you to a point of causing anxiety; delving into this reveals the meaning you seek, Libra.

**Scorpio (October 23-November 21)**

You long for new information regarding someone or something they're doing. You could find yourself at a loss for words when someone confronts you with something from the past. Your in-born psychic abilities are at the fore and may actually serve to help you avoid something dangerous or perhaps unpleasant. Understanding someone close gives them encouragement and maybe even hope! A phone call lets you know about something you ordered. Being pleasant when others aren't sets you apart from the crowd. Shopping for new accessories or a new outfit are indicated, Scorpio.

Your tastes change like the weather, variety is what you crave. Spring fever strikes and you answer the strong urge to clean, to throw out old unused items; you're aware of silly sentimental value. Loved ones grow more dear during this cycle and you find fulfillment here. Living among familiar people and things appeal to you strongly now. You receive an exciting proposition you seriously consider. We all have control of creating our own fate by making choices and taking certain directions, Sagittarius.

When certain thoughts or ideas pop into your head, it's much easier to remember them when written down. Feeling aloof helps you step back for a broader view of a situation you're called on to make a judgment call; you can see the correct answer clearly! You seem more able to get your tasks done alone. Looking inward tells you something about yourself. Peace and love to you, Aquarius.
