STAR TRACK

Aries (March 21-April 19)

The part of this day you love is that you're remembering old work habits and ideas that may have a chance of working for you now when you're on the job. You want stability but you want what you know is tried and true. There is no jumping out there with a new idea just to see if it works, kind of thing. The only thing you'll jump on is love. That's different. It gives you the chase you like. You're really not sure whether it's love you crave or the chase. Either gets your juices flowing. You love the way you feel. Aries. Your strength is showing.

Taurus (April 20-May 20)

You're seeking stability, substance and practicality in your life and you're trying to go about it in a spiritual manner. Everything has to be done right in your mind with one exception. Family, lovers, children and pets are uppermost in your thoughts. You don't know where you'd be without them. They make life go around for you emotionally. A new problem may arise, however, when you find someone who gives you too much attention and who may take attention away from a person you care for now. There's the conundrum. Be thoughtful of whether this is just for attention or could really amount to more than a fling. Taurus. It could mess with your peace.

Gemini (May 21-June 20)

You want romance and the thrill of the chase. You feel as if you're not in control in every other part of your life but you can control who you decide you want in your life. If you're not married, then you're on to the chase in love. That may be more fun than the catching. You also are thinking of ways to make substantial gains in material assets. Both items you desire badly and want to dream up ways of manifesting. Going through each day with winning in mind and working towards it will get you what you deserve.

Cancer (June 21-July 22)

Romance is at the top of your list especially when it involves the lover of your dreams. You want it to be all about your partner, making him or her the point of your life at this moment. You can't do enough to satisfy this person and you're thankful this wonderful human being occupies your soul. Take the time to show him or her how great they are but remember you're great too or your lover wouldn't be with you. You two are like young paramours exploring each other with conversation as well as your bodies all night long. Enjoy your time.

Leo (July 23-August 22)

Watch a movie or do something more interesting today. Just make it fun whatever you do. You may want to visit a local library and read to the children. Romance at the drop of a hat interests you now. It doesn't have to be about love but whatever the reason, it's a necessity in your mind today. Talk about your feelings to someone you love. Get your sisters and brothers together for a game such as cards or dominos and snacks later just because. Hold those you love close and enjoy your time with them.

Virgo (August 23-September 22)

Yep, you're in the mood for love. If you don't have that special someone in your home now, you're looking for them just as you were yesterday. Today it's more imperative though. Seriously, you go to the places you think you'll find someone you can love who has the same ideals and morals you do. Winning another's heart is definitely a challenge now. Virgo. You've made it a game today just to see if you've got that much charisma. Romance at the drop of a hat makes you feel alive. Be careful. You may get a keeper. Enjoy.

Libra (September 23-October 22)

Bringing unity to your life is part and parcel of your thoughts today. Simplification is another avenue you're traveling down in life but you're also looking for love the same as you were yesterday. This isn't going to be easy because in some manner you're in conflict with yourself now. You have some emotional frustration going on. This may not be the time to look for love. Perhaps you should think and plan for what love really is and what you really want. Libra. That may take the frustration away. Then you can enjoy the process of being in love.

Scorpio (October 23-November 21)

You want more in life right now but you want it to be substantial too. That means if you were a building contractor, you'd want your building to last longer than your life time. You want a legacy. Looking to your past can help you make that kind of move in your life now. Build upon the knowledge you've gained to make a stronger increase in your life. You can enjoy it now and later those you love can take advantage of it too. Scorpio. Strong foundations are a need. Love is what you crave now with all the physical enjoyment it brings too.

Sagittarius (November 22-December 21)

You really need to stop and smell the roses. Taking time to be thankful for what you've achieved in home, family, love and the job is nothing short of a miracle. Or at least that's the way those who watch you see it. You generally take this kind of "Luck" as a fact not a miraculous event. Besides, luck is what you make it. Sagittarius, and you know that. Right now, you want lots of blessing in the romance department. It's probably because you're into the thrill of the chase. That gives you your ability to be thankful and have fun.

Capricorn (December 22-January 19)

This cycle that is coming into your life now emphasizes more. Value and the recognition of that value is part of everything at which you look. You either want spiritual or physical gratification from the items you touch now. Appreciation of the finer things in life make you want to work harder but you also want to stop and smell the roses while making changes to your livelihood and home. Capricorn. Winning the hearts of others becomes a challenge you can't seem to hide from now whether for a lover or for workers who can appreciate your progress. You also want to make a better you by changing diet, making your health better and getting exercise. You go, Capricorn.

Aquarius (January 20- February 18)

Value in everything you do means a lot to you now. It pushes you to be better in every aspect of your life. This is a good trait to cultivate. Others hang on your every word whether it's work or personally motivated. Material gain is in the very air you breathe, both the need and the ability to achieve. Feeling good about yourself promotes your capabilities even more now. Aquarius. It's good to feel good about you. Confidence adds to your better qualities because you don't lord it over people. You're noticed.

Pisces (February 19-March 20)

The finer things in life is the cycle now saturating your thoughts. You need security and you crave all the things that make others say, "Wow." It's just a fact of life and it's here now. You need practicality in life's matters and work habits, you think, to make this happen. Pisces, you can and will get everything you want in a material fashion from money to power. It can be done now while the stars give you a little extra boost. Sex and love come together in a commanding union to fulfill the need you are feeling now.
