KUWAIT: Burgan Bank Group (Burgan) announced yesterday its H1'19 results, reflecting the Bank's solid operating performance and its continued prudent growth approach.

Strong revenue levels were delivered due to stable Net Interest Margin of 2.8 percent. Burgan continues to focus on operating efficiency, thereby maintaining its Cost-to-Income Ratio at 42.1 percent. Our strategy continues to deliver, our business model is solid, and we are well positioned to capture potential opportunities. The bank has also invested in further strengthening its risk management capabilities and is driving forward the sustainable development of its human capital."

Furthermore, Masaud M J Hayat, Group CEO of Burgan Bank Group commented, "Burgan continues to deliver solid and consistent returns to its shareholders, as demonstrated by the double-digit Return on Equity for the period."
