## Join the Dots

## STAR TRACK

<p><b>Aries (March 21-April 19)</b>                      You aren't the only one who can solve your problems, Aries. Trust that there are others who are capable of understanding. Those who want to help you are motivated only by love, with no ulterior motives. It's in your nature to be skeptical, but these people do exist. And guess what? You could communicate with one of them today!</p>	<p><b>Cancer (June 21-July 22)</b>                      Devote the day to your children or partner, Cancer. You may protest that it's too hard to find the time to give them the attention they deserve. You don't have time for yourself, much less anyone else. In any case, you will probably feel torn between what is expected of you and what you feel you can realistically give. If you want to dispel the inner tension, take care in the choices you make in the next few weeks.</p>	<p><b>Libra (September 23-October 22)</b>                      Your thin skin feels even thinner than usual today, Libra. If you happen to witness a violent outburst in the street, at work, or on television, you suddenly become aware of your vulnerability. Don't let it frighten you into hiding. As one of the few remaining guardians of the world's dwindling reserves of kindness, you have a responsibility.</p>	<p><b>Capricorn (December 22-January 19)</b>                      There's no point in trying to make sense of today, Capricorn. Much of what happens occurs on an unconscious level and defies any rational explanation. You may have had a dream last night worthy of professional interpretation. If you can bear turning off your intellect, this could be a very profitable day for you.</p>
<p><b>Taurus (April 20-May 20)</b>                      Have you noticed how delays seem to occur more often, Taurus? Today will be no exception. Something you've been waiting for has been delayed yet again. It may be that the order form got lost or that there was some unforeseeable delay in sending it to you. Even with your mild-mannered Taurus temperament, you're beginning to be a little irked! Sit tight. All will be resolved shortly.</p>	<p><b>Leo (July 23-August 22)</b>                      A friend or family member is slowly poisoning your relationship, Leo. A misunderstanding between the two of you will ultimately prove beneficial in the long run. Why? It makes you realize how uncomfortable you are with vague, ill-defined relationships. Today would be a good day to write a letter to the person in question. You're likely to find the results gratifying.</p>	<p><b>Scorpio (October 23-November 21)</b>                      People sometimes say that you're a little aggressive in your approach, Scorpio. But today you feel a little tired of leading the charge on the battlefield. You can learn a lot from your friends who can teach you to think of things in relative terms without allowing yourself to become emotionally involved in every situation. Try to relax for a change!</p>	<p><b>Aquarius (January 20- February 18)</b>                      This is a confusing period for all of us, Aquarius. But no doubt you've noticed this. In such circumstances, some people become more rigid than ever because they resist dramatic change. They try to hold on to tradition. Your Aquarius sensitivity makes you very receptive to the past, but current conditions should inspire you to let go of some of your convictions.</p>
<p><b>Gemini (May 21-June 20)</b>                      Get outside and get moving, Gemini! If you can manage to take the day off, this would be a good time to release some energy. You used to enjoy competition when you were little. Remember how exhilarating it was to be the first to the top of the hill? You will find your life greatly enriched if you could find a way to rekindle similar feelings.</p>	<p><b>Virgo (August 23-September 22)</b>                      You've been a social butterfly lately, Virgo! The sociable phase you're currently in demands a great deal of energy. You're attracted to some of your new acquaintances but irritated by others. One in particular causes you real anxiety today. You have two choices. Either abandon your new group of friends entirely or expel the person who's causing you trouble.</p>	<p><b>Sagittarius (November 22-December 21)</b>                      You may be a bit oversensitive today, Sagittarius. It's possible that you will be irritable and conflicted as you begin to suspect that long-term projects may not be finished. The time has come to take stock. There is likely a good reason that you've been unable to complete that project you undertook several months ago. Advice from others should steer you in the right direction.</p>	<p><b>Pisces (February 19-March 20)</b>                      What do you have to lose, Pisces? The planets are shaking you in the hopes of ridding you of your old objectives to make way for new growth. You feel doubt where once there was only certainty. When you consider the worst that can happen, it may help you to realize that what you're clinging to really isn't all that important. It's time to let go and begin anew.</p>
